

TRAFFIC PLANNING AND DESIGN, INC.

WWW.TRAFFICPD.COM

Traffic Signal/ITS Engineer; Various Locations

Job Description:

TPD is seeking enthusiastic experienced engineers to join our team. Our ideal candidate has a strong work ethic, a desire to learn, the willingness to work cohesively within a team and the ability to work on multiple concurrent projects.

TPD offers a competitive salary and excellent benefits including an unmatched flex time policy, Paid Time Off and a Professional Development program developed to help our staff continue their education and training throughout their careers.

Duties and Responsibilities include, but are not limited to:

- Development of traffic studies and design plans including ITS infrastructure, traffic signal, signing, pavement marking, construction sequencing, and traffic control plans.
- Assist with major project pursuits, new business development, and local client relationships. Identify potential projects and develop strategies to win these projects.
- Build and maintain relationships with key traffic engineering & ITS clients.
- Provide technical assistance on traffic engineering studies and design projects managed by other project managers and task leads.
- Willingness to learn new engineering methods and concepts, and the ability to incorporate said methods and concepts into work tasks without repetitive instruction.

Experience and Skills

- Bachelor's Degree in Civil or Electrical Engineering (required) with ITS planning, design and implementation experience
- PE license is required
- Minimum 7 years' experience utilizing Microstation, SYNCHRO, SimTraffic, and VISSIM
- Familiarity with State and Federal design processes with respect to signal design
- Aptitude for detail-oriented work assignments
- Excellent oral and written communication skills
- Knowledge of Microsoft Office Suite
- Valid Driver's License
