Annual Beam Crushing Event!

Lehigh-Lafayette Rivalry week is rapidly approaching! Next **Monday, November 14th**, from **5:00pm-7:00pm** Lehigh's ASCE student chapter is hosting the **Annual Le-Laf Crushing Event** on the main floor of Fritz Lab. Beams prepared by teams from Lehigh and Lafayette will be loaded into the 5,000,000 pound universal testing machine where they will battle to begin rivalry week. You are cordially invited to witness the destruction!

REGION 2 NEWS

ASCE Region 2 Recipient of ASCE National President-Elect Award

ASCE's Region 2, of which the Lehigh Valley Section is a part of, has been selected by ASCE's Region Support Subcommittee of the Member Communities Committee (MCC) to receive the President Elect Award which is awarded to a Region with excellent health. The scorecard was developed by MCC and used as a metric to track trends over time and to measure the effectiveness of the geographic regions in moving toward fulfilling ASCE's strategic goals. Additionally, the ASCE Region Award Program was developed to encourage Geographic Regions to fulfill their engagement responsibilities as assigned in the ASCE Official Register and ASCE Strategic Plan. This award indicates that the Lehigh Valley Section and other Region 2 Sections and Branches have gone above and beyond in member engagement in 2021!

REGION 2 NEWS *(continued)*

LV-ASCE Members attend Region 2 Assembly in Camp Hill, PA

Five members of the Lehigh Valley Section attended the November 5th Region 2 Assembly in Camp Hill, Pennsylvania – Greg Kuklinski, Nick Giglio, John Caperilla, Lane Wilder, and Matt Evans. The full-day event covered a wide range of topics, including: leadership; member engagement, work-life balance, mentorship post-COVID, and review of ASCE’s Strategic Plan. Attendees found the day to be informative and beneficial.

SECTION NEWS

LV-ASCE Member Recognized at National Convention

Congratulations to LV-ASCE’s Nicholas Giglio, recipient of 2022 Opal Award as New Face of Civil Engineering Professional Honoree! We are pleased that Nick was able to attend ASCE’s National Convention in Anaheim, California in October to receive his award. Nick reported the Convention was enjoyable, informative, and had many great networking opportunities. Many thanks to Urban Engineers for providing financial support for Nick’s travel costs.

EWRI Leadership and Council Weekend

LV-ASCE’s Ismail Haltas, our EWRI Committee Chair and a professor at King’s College in Wilkes-Barre, attended the EWRI Leadership and Council Weekend on Saturday, 29 October, at ASCE Headquarters in Reston, Virginia. Ismail found the meeting very helpful. Ismail met with the EWRI staff, Local Activities Council Chair and Past Chair, and 11 local chapter chairs across the US. Local chapters presented their annual activities. A Team Group was formed during the weekend to discuss future idea-sharing and support networking.
